Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	Tara Galuska, Email: tara.galuska@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

This design-only project will produce a final design of measures to correct a partial fish passage barrier and other problems caused by irrigation infrastructure on McDonald Creek, a tributary to the Strait of Juan de Fuca. The site is located adjacent to Hwy 101, 5 miles west of Sequim, in Clallam County. The restoration measures include 1) removal of the diversion dam, irrigation outtake, and all other irrigation structures, 2) restoration of about 1200' of stream channel, and 3) modification of the channel to produce a 1% grade to replace the existing the 5' drop at the dam removed. The project restores 1200' of mainstem habitat and improves fish passage into 4.5 miles of mainstem habitat used by coho, steelhead, and cutthroat and an additional 1.6 miles of mainstem habitat used by steelhead.

Describe existing project site conditions.

Upstream end of the site is a diversion dam for Agnew Irrigation District. Along the east side of the creek is the outtake canal which flows north to the fish screen and fish bypass pipe. Just downstream of this is the Hwy 101 bridge. The surrounding uplands are owned by WSDOT and a private landowner. The DOT lands were previously used for commercial purposes, they were purchased for their road widening project.

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>
